

As a commercial photographer, Stephanie's goal has always been to combine her three loves food, natural light and realism when making beautiful imagery for her clients. Stephanie's images are grounded in enticing the viewer to want to reach into the image and grab the food that has caught their attention.

For the last two decades Stephanie has been creating beautiful imagery for brands and agencies both big and small with the exact same intention as day 1 in her career, "To create images that look so authentically scrumptious you just want to eat it."

In recent years, Stephanie has evolved her style further and lent into more lifestyle forward stories on top of her already beautiful tabletop stills. Whether she's in the home studio or ankle-deep in grass on a farm, one thing holds true and that's her excitement to deliver.

Beyond everything else, Stephanie's thoughtfulness to her projects and her clients can be seen through her years of work working with her regulars to continue to evolve their brands and the foods they share.

Interested in partnering on your next food project? Reach out to share a little more!

FOOD + LIFESTYLE PHOTOGRAPHY

Studio

Large or small some projects just require the space, control and equipment of a studio shoot. Separate client workspaces, props, daylight or controlled lighting, stylist and retouchers are all just a request away. Lets work together to make your dream photo shoot come to life within these creative walls.

Remote

These shoots can happen in studio or location but maybe you can't make it to the set. Our team can give you live feed of the set so you are viewing in real time, or we can send you updates throughout the day to keep a check on the creative direction. With creative direction and some planning ahead of time this is a great option for long distance clients or those on a time crunch.

On location

Have a project where life would just be easier if I came to you? We can make that happen. Whether you want to capture the environment of a restaurant, have a special setting for a editorial article/cookbook or we are capturing a farmer bringing our food to life knee deep in grass we can plan a coordinate a seamless location shoot to meet all your needs.
